

11. **To consider and agree expenditure on Parish Councillor training in order to place documents on the Parish Council website.** It was agreed that this may become a necessary expenditure for extra training in order to manage the website to the necessary standard.
12. **To discuss and agree on actions to be taken following on from the Parish Meeting on 24th May 2022.** The main issue raised at the Parish Meeting was that of traffic speed through the village. The emphasis was on the road from Crowfield, and whether the 30mph speed limit could be extended. Councillor Hicks who attended the meeting felt it was unlikely that any changes would be allowed on the ones currently enforced. Response from the Police to an email from the Parish Council indicated that Town House Corner and the Wanda Cottage area had been checked but were within the current guidelines.
13. **To consider the application for Planning Permission DC/22/03662. Wanda Cottage. Erection of porch to side elevation.** Councillors had viewed the application and plans on-line and had no objections or comments to offer.
14. **To consider report on Internal Audit 21/22.** The internal audit for 21/22 had been carried out for the Parish Council by SALC. Minor comments by the auditor were noted by Councillors and would receive attention.
15. **Any other business.** There was no further business.
16. **Date on next meeting.** Still to be arranged.
